No More Messy Cables

Our new Multimedia Plates and Enclosure help manage and simplify home theater connections. One, two and three-gang versions accommodate all cable run needs for power, audio, video, home theater, data and phone.

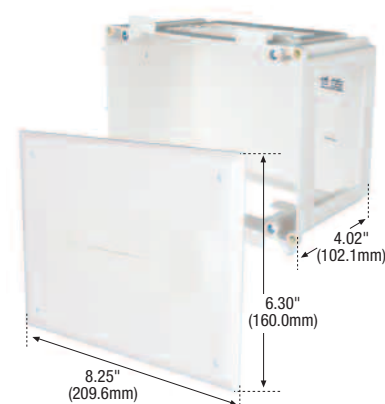

Multimedia Plates and Enclosure

FEATURES

- Recessed low-profile design provides attractive, neat and clean installation and eliminates unsightly wires and plug heads.
- For use in new construction or retrofit applications.
- Plates offered in one, two or three-gang high-gloss finish.
- Mounts in either direction to allow for top or bottom cable feeds.
- Reverse nose design accommodates cable feed-through and is a catch for funneling low-voltage cables.
- Swing-out clamps on 35MR & 35ME lock the plate securely to wall.
- 35MR allows for single receptacle at point of installation, perfect for wall-mounted flat screen TVs.
- Pre-assembled box and frame on 35ME reduces labor time and saves money.
- Shallow design of the 35ME provides ample room behind the drywall and between the studs, and accommodates cable bend requirements.
- 35ME includes cover with flex rubber pass-through for gripping and positioning of cables and cords.
- 35ME has three side openings which provide for the installation of two connectivity points for power, audio, and video and another for cable entry.
- Cover plate can be used as template for outlining cover cutout on wall (35ME).
- Stud positioning marks allows for easy alignment with stud reducing installation time of the 35ME.
